MEETING: October 12, 2004
ACTION DATE: To be determined

Scott Horan
Executive Director
Planning & Construction

Andre' A. Nougaret
Assistant Superintendent
for Support Services

ACTION REQUESTED BY THE SUPERINTENDENT: That the School Board receive for information the proposed attendance zone recommendation for Mountain View High School as provided to the Superintendent by the High School Redistricting Committee.

KEY POINTS:

- ◆ Per School Board Policy 7-12 a High School Redistricting Committee has been established and has met over the last two months in an effort to reach a consensus on a proposed high school attendance zone for the county's newest high school (Mountain View High School) scheduled to open in September of 2005.
- ◆ The Redistricting Committee consists of the following members:
 1. Lisa Martin – Colonial Forge, Principal
 2. Connie Irby – Colonial Forge, Parent Representative
 3. Andrew Loft/Keith Mesa – Colonial Forge, Teacher Representative
 4. Ben/Ahley Irby - Colonial Forge, Student Representative
 5. Cindy Holder – Brooke Point, Principal
 6. Valerie Raven – Brooke Point, Teacher Representative
 7. Debra Bergmeister – Brooke Point, Parent Representative
 8. Erin Bergmeister – Brooke Point, Student Representative
 9. Jon Connor – Stafford, Assistant Principal
 10. Bobby Jett – Stafford, Teacher Representative
 11. Marli Robinson – Stafford, Parent Representative
 12. Lindsay Shacklette – Stafford, Student Representative
 13. Tom Nichols – North Stafford, Principal
 14. Mike Miklich – North Stafford, Teacher Representative
 15. Jacquelyn Disilio – North Stafford, Parent Representative
 16. Lauren Disilio – North Stafford, Student Representative
 17. Jim Stemple – Mountain View, Principal
 18. Tom Coen – Long Range Planning Committee, Chair
- ◆ In addition to considerations identified in Policy 7-12 the committee determined that some of their **primary** goals in establishing a new attendance zone included:
 1. Achieving an overall student enrollment balance relative to the capacities of the five facilities involved.

2. To the extent possible, align feeder patterns such that students at the middle school level will proceed to high school with peers.
3. Where possible, establish stable attendance zones that would potentially reduce future redistricting efforts.
4. Provide relief for all four existing high schools in the county either directly, or indirectly, through redistricting moves between existing schools that take place concurrently with the opening of the new high school in 2005.

Note: The committee possessed a strong desire to create a redistricting plan that took into account the proposed New High School 2007 as identified in the School Board's Capital Improvements Program (CIP). Given that no site has been secured for said new facility the committee ultimately felt they would not be able to provide a redistricting plan that addressed that potential attendance zone. While the committee's plan does take into account both the **need** and **expectation** of a new high school to be constructed in 2007, their ability to construct attendance zones that would transition, with minimal disruption, into that potential facility remains a question they were unable to answer within their proposal.

- ◆ The process of arriving at a recommended redistricting proposal took place in a highly interactive effort whereby school board staff produced three (3) initial options at the committee's first meeting. The purpose of these three (3) initial options was to generate committee discussion and to have the committee begin focusing on their goals and objectives relative to countywide geography inclusive of current attendance zones, current student enrollments, projected student enrollments, current and projected subdivision growth, transportation corridors, existing facility locations and potential future facility locations.

Giving credence to all considerations and factors, the committee, at subsequent meetings analyzed each option carefully. As a result, each meeting included staff bringing back one or two options from the previous meeting, inclusive of requested pertinent information being factored into the committee's preferred options from previous meetings.

In time, the committee chose to focus on one preferred scenario by which they arrived at their final two proposed redistricting options. There are only slight differentiations between the committee's two proposed redistricting plans.

- ◆ Because of the committee's efforts, a proposed new attendance zone was created that included redistricting students currently attending North Stafford and Colonial Forge to create the new Mountain View High School attendance zone.

In addition, and proposed to take place concurrently with the opening of Mountain View High School, the committee also recommended redistricting students currently attending Brooke Point High School to North Stafford High School and the redistricting of students currently attending Stafford High School to Colonial Forge High School. Further, in addition to the proposals noted above one committee option also includes redistricting students currently attending Colonial Forge to Brooke Point High School.

- ◆ At their last meeting, the Redistricting Committee chose to vote on two options. The first proposal received 10 of the 13 votes present (Committee Recommendation A). The three committee members who did not vote in favor of Recommendation A preferred Recommendation B. In both recommendations, the proposed attendance zone for Mountain View High School remains the same. The proposed Mountain View High School attendance zone consists of the following subdivisions:

- ◆ Public Hearings will be held at Stafford, Colonial Forge, North Stafford and Brooke Point High Schools with a proposed schedule to be announced at the October 12, 2004 School Board meeting.
- ◆ Maps of each redistricting plan and a list of affected streets and subdivisions can be reviewed at each high school and at the Alvin York Bandy School Board Complex. Following the School Board meeting on October 12th the proposals can be viewed on the School Division's Website.

SCHOOL BOARD GOAL: #4 – Address the impact of continuing population growth by developing plans to address expanding staff, facilities, transportation, attendance zones and instruction

#5 – Provide facilities that promote student learning and and community support.
